

**Don't gamble with
workers' lives.**

**Support smokefree
air for everyone.**

It's time for the Legislature to pass a smokefree law that protects all Michigan workers. Secondhand smoke contains over 4,000 chemicals, including arsenic and cyanide. It causes lung cancer, heart disease and other serious illnesses — killing as many as 2,400 Michigan residents each year. Whether you work in an office, restaurant, bar or casino, you deserve the right to breathe smokefree air.

**Call 888-NOW-I-CAN to tell your Representative to vote to concur with HB 4163,
a comprehensive smokefree workplace bill for all.**
